

# Allocation announcement

Thursday 15 August 2013

Murray Irrigation

## Increased allocation for general security water users

The NSW Office of Water (NOW) this morning announced increased allocations for general security water users in the NSW Murray and Murrumbidgee valleys.

Murray Irrigation general security (Class C) customers received an increase of 11 percent, which brings the total allocation to 57 percent of water entitlements.

NOW stated that the increase was the result of recent good rainfall in the upper parts of the Murray catchment. This has also enabled supplementary access to be extended in the NSW Murray.

A copy of the NOW announcement is available in the 'Water Resources Updates' section of the Murray Irrigation website: [www.murrayirrigation.com.au](http://www.murrayirrigation.com.au).
