

Off Allocation ends

Tuesday 10 September 2013

Murray Irrigation

Off allocation water access finishes

Murray Irrigation today confirmed that off allocation water access will finish for all customers on Wednesday 11 September.

This cessation is the result of all of Murray Irrigation's supplementary water being used, and coincides with an announcement by the NSW Office of Water (NOW) to end access.

Water deliveries beyond Wednesday 11 September will be accounted as on allocation water.

If you are currently irrigating and do not wish to continue irrigating with on allocation water, please place a finish order before 6.30am on Wednesday 11 September.

The full NOW announcement can be viewed in the 'Water Resources Updates' section of Murray Irrigation's website: www.murrayirrigation.com.au.

For further information, please contact reception on T. 1300 138 265.
