

# Chairman's announcement

Thursday 17 April 2014

Murray Irrigation

This is a water efficiency announcement from the Chairman, released during the Murray Irrigation Board of Directors meeting today.

## **Water efficiency allocation**

The Board agreed to make a water efficiency allocation of two percent of permanent delivery entitlements, excluding Class A (Town Water Supply) and domestic supply agreement customers. This announcement takes the water efficiency allocation to 11 percent or over 115,000ML.

This efficiency allocation is possible because of conveyance savings from operational efficiencies and forecast lower autumn deliveries as a result of the recent rainfall event.

A full Chairman's report from today's meeting will be released next Tuesday.

On behalf of the company's directors and staff, I wish all our shareholders a safe and enjoyable Easter.

**Bruce Simpson**  
Chairman
