

Allocation announcement

Monday 1 September 2014

Murray Irrigation

Three percent increase in general security announced allocation.

The NSW Department of Primary Industries (DPI) this morning announced a three percent increase in the announced allocation for general security, taking the announced allocation to a total of 20 percent in the NSW Murray.

As a result of this increase Murray Irrigation's announced allocation is now 20 percent for general security (Class C) customers.

DPI confirmed trade restrictions across the Barmah Choke remain relaxed, with the relaxation reviewed monthly.

Trade out of the Murrumbidgee Valley is at its limit and remains closed, while trade to and from the Lower Darling is also closed because of storage levels in the Menindee Lakes.

A copy of the DPI announcement is available in the 'Water Resources Updates' section of the Murray Irrigation website: www.murrayirrigation.com.au.
